THE ELECTRONIC ENGINEER

1969 Annual editorial index

Issue index

January — Page

From Wien to Washington ..... Alberto Socolovsky 7
Ions do their thing . . . on semiconductors ..... Alberto Socolovsky 7
New product management, Part I: Get more for your engineering dollars ..... Eugene W. Parry 38
Charging energy-storage capacitors from low-voltage ..... Lynn T. Rees 50
The electromagnetic spectrum chart 57
Ion implantation: the sock-it-to-'em method to dope semiconductors .. Stephen A. Thompson 68
Learn to live with a filter's reactance ..... Robert B. Cowdell 79
Telemetry course, Part II: Frequency-division multiplex ..... Richard G. Vorce 82
Are you confused by high di/dt SCR ratings? ... Dante E. Piccone and I. Steve Somos 89

February

Yes, doctor, there is an EE in the house ..... Alberto Socolovsky 7
Stacked gate tetrode operates at 200 to 300 V ... 8
New Product Management, Part II ..... Eugene W. Parry 31
Diode rf sources: combine them for high power A. I. Zverev 45
LSI: No longer a mission impossible ..... Mark B. Leeds 53
Telemetry course, Part III: Time-division multiplexing ..... Harry C. Morgan 65
Wiring . . . some like it flat .... Smedley B. Ruth 75

March

Are you still waiting for *all* the facts? ..... Stephen A. Thompson 7
Get the right technical data: Know where to look for it ..... Joel J. Shulman 29
Heat-shrinkable insulation guide 35
A happening in fun city 49
IC regulator removes restrictions ..... J. Darryl Lieux and Robert D. Ricks 53
Protecting circuits from over- and under-voltage Richard Klein 59
Telemetry course, Part IV: Time-division demultiplexing and decoding ..... George J. Slusarchyk 63
Components feel the squeeze of ICs ..... David H. Surgan 73
A quick guide to environmental specifications ... Rudolf Wernick 79
Frequency counter is also a computer 99

April

Where digital ends and linear begins ..... Alberto Socolovsky 7
Radiation or reliability: Which comes first? .... Staff report 10
The engineer is a loner ..... Rocco F. Ficchi 25
The engineer as a part of society ..... Robert A. Sears 29
Terminal junctions make their debut ..... Staff report 47
Telemetry course, Part V: Displays—Techniques and Technology ..... Harry C. Morgan 53
Discrete components to solve your stripline problems ..... Tom Osiecki 65
SHP shapes up ..... Richard W. Kowaliw 71

May

One electronic world ..... Alberto Socolovsky 7
Project management, military style..... S. Peter Kaprielyan 27
IC voltage regulators—Do-it-yourself power supplies ..... Stephen A. Thompson 47
Transmitting data with digital ICs ..... R. J. Widlar and J. J. Kubinec 58
ROM at the top ..... John Linford 64
Instrumentation: The systems approach ..... Staff report 73

June

On heckling and doing ..... Alberto Socolovsky 7
Project management accomplishes "impossible" mission ..... Joan Segal 33
Speed/power chart for digital ICs ... Staff report 48
Operational amplifiers application guide 51
Operational amplifier charts ..... Staff report 61
Digital data: play it like it is .. Frank C. Marino 74
Torture tests improve equipment reliability .... Smedley B. Ruth 80
Jack-of-all trades: monolithic i-f is a universal subsystem ..... Robert A. Hirschfeld 97

Annual Index

July

Archimedes and Leonardo were members of the industrial-military complex ..... Alberto Socolovsky 7
Would you put that probe on your sick grandmother? .....Roger Kenneth Field 35
MOS memories save power .....Dale Mrazek 49
Graphic analysis of a twin-T network ..... John M. Shaull 54
Tables of CAD programs ..... Robert J. Broda & James O. Young 59
Muffling noise in TTL .....William Heniford 63
Take the guesswork out of fuse selection ..... F. B. Golden 71
Simplifying impedance matched circuits ..... Martin Blickstein 84

August

Electronics on the moon ....Alberto Socolovsky 7
The undergraduate . . . or how come we can't talk to one another? .....Roger D'Aprix 35
Understanding solid-state or static relays ..... Michael Joyce 43
Calibration curves for temperature sensors ..... Staff report 49
Temperature measurement guide 51
CAD Graphics: Circuits made to order ..... Stephen A. Thompson 59
Cabling fast pulses? Don't trip over the steps .... Thad Dreher 71
New, cheaper waveforms at WESCON ..... Staff report 88
General-purpose scope has 250-MHz response ... Staff report 93

September

Who should write op amp specs? ..... Alberto Socolovsky 9
Dot matrix lights with gas .....Staff report 10
One giant leap for mankind . . . One step backward for engineers .....Joan Segal 39
Design guide to hybrid package size ..... Robert G. Bristol 45
Environmental code: A shortcut to specifications Rudolf Wernick 49
Guide to electrical tape 53
Divided-gap choke is a real swinger ..... Herbert I. Keroes 61
Get regulated current with FETs ....Bob Botos 64
New approach to alphanumeric readouts ..... Jay Freeman 93

October

Go midwest, young man ....Alberto Socolovsky 7
X-rays disappear with solid state package 10
Will optical memories ever forget? Now they can! .....Roy Schwartz 20
Can management give engineers what they really want? .....Dr. Arthur D. Kellner 34
Integrating DVM's fight noise, but ..... Delbert L. Johnson 40
Taking the mystery out of DVM specs ..... Ken Jessen 46
Hybrids—thick and thin .....Smedley B. Ruth 60
Mixed up in mixers? Try an HCD ..... Aki Tanka and Sulleyman Sir 68

November

Do you really want all those options in a DVM? Alberto Socolovsky 9
At the outset of technical editing ..... Eldred E. Atkins 29
Graphic data tablets .....Robert Patton 50
Nomographs simplify phased array design ..... Chester W. Young 57
Tune in with a new N-path filter ....Erik Langer 62
DVM specs compared ....Stephen A. Thompson 69
Correlating data in real-time .....Staff report 85

December

Don't bring back the transistor radio ..... Alberto Socolovsky 9
Get true—rms voltage regulation ..... inexpensively .....Imre Gorgenyi 38
How to write reports that bring results ..... Raymond E. Herzog 33
Storage CRTs for radar .....Terry Ballou 46
The price of TTL .....Arthur Boyle 53
Digital smoothing: ironing out the wrinkles .... Paul H. Dillinger 61

Subject index

AMPLIFIERS Month & Page No.

Digital data: play it like it is .....Frank C. Marino 6-74
Ic op amp selection charts .....Staff Report 6-61
Jack-of-all-trades: monolithic i-f is a universal subsystem .....Robert A. Hirschfeld 6-97

CAREERS

At the outset of technical editing .Eldred E. Atkins 11-29
Can management give engineers what they really want? .....Dr. Arthur D. Kellner 10-34
Get the right technical data: Know where to look for it .....Joel J. Shulman 3-29
How to write reports that bring results ..... Raymond E. Herzog 12-33
New product management, Part I: How to get more products for your engineering dollars ..... Eugene W. Parry 1-38
New product management, Part II: A case history Eugene W. Parry 2-31
One giant leap for mankind...One step backwards for engineers .....Joan Segal 9-39
Project management accomplishes "impossible" mission .....Joan Segal 6-33
Project management, military style ..... S. Peter Kaprielyan 5-27
The engineer as a part of society ..... Robert A. Sears 4-29
The engineer is a loner .....Rocco Ficchi 4-25
Would you put that probe on your sick grandmother? .....Roger K. Field 7-35

CHARTS and NOMOGRAPHS

A quick guide to environmental specifications ..... Rudolf Wernick 3-79
Calibration curves for temperature sensors ..... Staff Report 8-49
Environmental code: A shortcut to specifications Rudolf Wernick 9-49
IC op amp selection charts .....Staff Report 6-61
New guide to temperature measurement 8-51
Nomographs simplify phased array design ..... Chester W. Young 11-57

Speed/power chart for digital ICs ..Staff Report 6-48
The price of TTL .....Arthur Boyle 12-53

CIRCUIT DESIGN

A new network analyzer .....Douglas Spreng 9-85
Are you confused by high di/dt SCR ratings? ....
Dante E. Piccone & I. Steve Somos 1-89
CAD Graphics: Circuits made to order .....
Stephen A. Thompson 8-59
Charging energy-storage capacitors from low-voltage sources .....Lynn T. Rees 1-50
Diode rf sources: combine them for high power ..
Dr. I. A. Zverev 2-45
Discrete components to solve your stripline problems .....Tom Osiecki 4-65
Get regulated current with FETs .....Bob Botos 9-64
Graphic analysis of a twin-T network .....
John M. Shaull 7-54
Graphic data tablets .....Robert Patton 11-50
IC op amp selection charts .....Staff Report 6-61
IC regulator removes restrictions .....
J. Darryl Lieux & Robert D. Ricks 3-53
Integrating DVM's fight noise, but .....
Delbert L. Johnson 10-40
Jack-of-all-trades: monolithic i-f is a universal subsystem .....Robert A. Hirschfeld 6-97
Mixed up in mixers? Try an HCD .....
Aki Tanaka & Suleyman Sir 10-68
Muffling noise in TTL .....William Heniford 7-63
Protecting circuits from over and under voltages
Richard Klein 3-59
Simplifying impedance matched circuits .....
Martin Blickstein 7-84
Tables of CAD programs .....Staff Report 7-59
Take the guesswork out of fuse selection .....
F. B. Golden 7-71
Tune in with a new N-path filter .....Erik Langer 11-62

COMMUNICATIONS

A new network analyzer .....Douglas C. Spreng 9-85
A new type of N-path filter leads to integrated receiver .....Erik Langer 11-62
Jack-of-all-trades: monolithic i-f is a universal subsystem .....Robert A. Hirschfeld 6-97
Nomographs simplify phased array design .....
Chester W. Young 11-57
Tune in with a new N-path filter .....Erik Langer 11-62

COMPUTERS

LSI: no longer a mission impossible ..Mark Leeds 2-53
Muffling noise in TTL .....William Heniford 7-63
ROM at the top .....John Linford 5-64
Telemetry course, Part III: Time-division multiplexing .....Harry C. Morgan 2-65

COMPUTERS and PERIPHERALS

CAD Graphics: Circuits made to order .....
Stephen A. Thompson 8-59
Digital smoothing: ironing out the wrinkles .....
Paul H. Dillinger 12-61
Graphic data tablets .....Robert Patton 11-50
IC voltage regulators—Do-it-yourself power supplies? .....Stephen A. Thompson 5-47
Instrumentation: The systems approach .....
Staff Report 5-73
LSI: no longer a mission impossible ...Mark Leeds 2-53
MOS memories save power .....Dale Mrazek 7-49
New approach to alphanumeric readouts .....
Jay Freeman 9-93
Tables of CAD programs .....Staff Report 7-59
Telemetry course, Part II: Frequency-division multiplexing .....Richard G. Vorce 1-81
Telemetry course, Part IV: Time-division demultiplexing and decoding .....George Slusarchyk 3-63
Telemetry course, Part V: Displays-Techniques and Technology .....Harry C. Morgan 4-53
Will optical memories ever forget? Now they can!
Roy Schwartz 10-20

CONNECTORS

Terminal junctions make their debut ..Staff Report 4-47
Wiring . . . some like it flat ...Smedley B. Ruth 2-75

DATA ACQUISITION and PROCESSING

Digital data: play it like it is ....Frank C. Marino 6-74
Digital smoothing: ironing out the wrinkles .....
Paul H. Dillinger 12-61
DVM specs compared .....Stephen A. Thompson 11-69
Graphic data tablets .....Robert Patton 11-50
Instrumentation: The systems approach .....
Staff Report 5-73
New approach to alphanumeric readouts .....
Jay Freeman 9-93
Telemetry course, Part II: Frequency-division multiplexing .....Richard G. Vorce 1-81
Telemetry course, Part III: Time-division multiplexing .....Mark Leeds 2-65
Telemetry course, Part IV: Time-division demultiplexing and decoding .....George Slusarchyk 3-63
Telemetry course, Part V: Displays-Techniques and Technology .....Harry C. Morgan 4-53
Will optical memories ever forget? Now they can!
Roy Schwartz 10-20

DIGITAL DESIGN

Digital data: play it like it is .....Frank C. Marino 6-74
Integrating DVM's fight noise, but . . . .
Delbert L. Johnson 10-40
LSI: no longer a mission impossible ...Mark Leeds 2-53
ROM at the top .....John Linford 5-64
Speed/power chart for digital ICs ...Staff Report 6-48
Transmitting data with digital ICs .....
R. J. Widlar & J. J. Kubinec 5-58

INSTRUMENTS and MEASUREMENTS

A new network analyzer .....Douglas C. Spreng 9-85
A quick guide to environmental specifications ...
Rudolf Wernick 3-79
Cabling fast pulses? Don't trip on the steps .....
Thad Dreher 8-71
Calibration curves for temperature sensors .....
Staff Report 8-49
Digital smoothing: ironing out the wrinkles .....
Paul H. Dillinger 12-61
DVM specs compared .....Stephen A. Thompson 11-69
Environmental code: A shortcut to specifications ..
Rudolf Wernick 9-49
Instrumentation: The systems approach .....
Staff Report 5-73
Integrating DVM's fight noise, but . . . .
Delbert L. Johnson 10-40
Taking the mystery out of DVM specs .....
Kenneth Jessen 10-46
Telemetry course, Part II: Frequency-division multiplexing .....Richard G. Vorce 1-81
Telemetry course, Part III: Time-division multiplexing .....Harry C. Morgan 2-65
Telemetry course, Part IV: Time-division demultiplexing and decoding .....George Slusarchyk 3-63
Telemetry course, Part V: Displays-Techniques and Technology .....Harry C. Morgan 4-53
Torture tests improve equipment reliability .....
Smedley B. Ruth 6-80

INTEGRATED CIRCUITS

CAD Graphics: Circuits made to order .....
Stephen A. Thompson 8-59
Hybrids . . . Thick and Thin ....Smedley B. Ruth 10-60
IC op amp selection charts .....Staff Report 6-61

Annual Index

IC regulator removes restrictions ..... J. Darryl Lieux & Robert D. Ricks 3-53
IC voltage regulators: Do-it-yourself power supplies? .....Stephen A. Thompson 5-47
Ion implantation: the sock-it-to-'em method to dope semiconductors .....Stephen A. Thompson 1-68
Jack-of-all-trades: monolithic i-f is a universal subsystem .....Robert A. Hirschfeld 6-97
LSI: no longer a mission impossible ..Mark Leeds 2-53
MOS memories save power .....Dale Mrazek 7-49
Muffling noise in TTL .....William Heniford 7-63
New approach to alphanumeric readouts ..... Jay Freeman 9-93
ROM at the top .....John Linford 5-64
Speed/power chart for digital ICs ...Staff Report 5-48
The price of TTL .....Arthur Boyle 12-53
Transmitting data with digital ICs ..... R. J. Widlar & J. J. Kubinec 5-58
Tune in with a new N-path filter .....Erik Langer 11-62

MAGNETIC DEVICES

Divided-gap choke is a real swinger ..... Herbert I. Keroes 9-61
Learn to live with a filter's reactance ..... Robert B. Cowdell 1-79
Will optical memories ever forget? Now they can! Roy Schwartz 10-20

MATERIALS

Components feel the squeeze of ICs ..Dave Surgan 3-73
Hybrids . . . Thick and Thin ....Smedley B. Ruth 10-60
Ion implantation: the sock-it-to-'em method to dope semiconductors .....Stephen A. Thompson 1-68
Wiring . . . some like it flat .....Smedley B. Ruth 2-75

MICROWAVES and MICROWAVE PRODUCTS

Cabling fast pulses? Don't trip on the steps ..... Thad Dreher 8-71
Diode rf sources: combine them for high power .. Dr. A. I. Zverev 2-45
Discrete components to solve your stripline problems .....Tom Osiecki 4-65
Ion implantation: the sock-it-to-'em method to dope semiconductors .....Stephen A. Thompson 1-68
Mixed up in mixers? Try an HCD ..... Aki Tanaka & Suleyman Sir 10-68
Nomographs simplify phased array design ..... Chester W. Young 11-57
Storage CRTs for radar .....Terry Ballou 12-46

PACKAGING

Hybrids . . . Thick and Thin ....Smedley B. Ruth 10-60
SHP shapes up .....Richard W. Kowaliw 4-71
Terminal junctions make their debut ...Staff Report 4-47
Wiring . . . some like it flat .....Smedley B. Ruth 2-75

PASSIVE COMPONENTS

A quick guide to environmental specifications ..... Rudolf Wernick 3-79
Components feel the squeeze of ICs ..Dave Surgan 3-73
Discrete components to solve your stripline problems .....Tom Osiecki 4-65
Divided-gap choke is a real swinger ..... Herbert I. Keroes 9-61
Graphic analysis of a twin-T network ..... John M. Shaull 7-54
Learn to live with a filter's reactance ..... Robert B. Cowdell 1-79
SHP shapes up .....Richard W. Kowaliw 4-71
Take the guesswork out of fuse selection ..... F. B. Golden 7-71
Tune in with a new N-path fiter.....Erik Langer 11-62

POWER SUPPLIES

Charging energy-storage capacitors from low-voltage sources .....Lynn T. Rees 1-50
Divided-gap choke is a real swinger ..... Herbert I. Keroes 9-61
Get regulated current with FETs .....Bob Botos 9-64
IC regulator removes restrictions ..... J. Darryl Lieux & Robert D. Ricks 3-53
IC voltage regulators: Do-it-yourself power supplies? .....Stephen A. Thompson 5-47
Protecting circuits from over and under voltages Richard Klein 3-59
Take the guesswork out of fuse selection ..... F. B. Golden 7-71

PROJECT MANAGEMENT

Can management give engineers what they really want? .....Dr. Arthur D. Kellner 10-34
New product management, Part I: How to get more products for your engineering dollars ..... Eugene W. Parry 1-38
New product management, Part II: A case history Eugene W. Parry 2-31
Project management accomplishes "impossible" mission .....Joan Segal 6-33
Project management, military style ..... S. Peter Kaprielyan 5-27

RELIABILITY

A quick guide to environmental specifications ..... Rudolf Wernick 3-79
Environmental code: A shortcut to specifications.. Rudolf Wernick 9-49
Take the guesswork out of fuse selection ..... F. B. Golden 7-71
Torture tests improve equipment reliability ..... Smedley B. Ruth 6-80

SEMICONDUCTORS

CAD Graphics: Circuits made to order ..... Stephen A. Thompson 8-59
IC op amp selection charts .....Staff Reports 6-61
IC regulator removes restrictions ..... J. Darryl Lieux & Robert D. Ricks 3-53
IC voltage regulators: Do-it-yourself power supplies? .....Stephen A. Thompson 5-47
Ion implantation: the sock-it-to-'em method to dope semiconductors .....Stephen A. Thompson 1-68
LSI: no longer a mission impossible ..Mark Leeds 2-53
Mixed up in mixers? Try an HCD ..... Aki Tanaka & Suleyman Sir 10-68
Muffling noise in TTL .....William Heniford 7-63
ROM at the top .....John Linford 5-64
SHP shapes up .....Richard W. Kowaliw 4-71
Take the guesswork out of fuse selection ..... F. B. Golden 7-71

TRANSDUCERS

Telemetry course, Part II: Frequency-division multiplexing .....Richard G. Vorce 1-81
Telemetry course, Part III: Time-division multiplexing .....Harry C. Morgan 2-65
Telemetry course, Part IV: Time-division demultiplexing and decoding .....George Slusarchyk 3-63
Telemetry course, Part V: Displays-Techniques and Technology .....Harry C. Morgan 4-53

WIRE and CABLES

Cabling fast pulses? Don't trip on the steps ..... Thad Dreher 8-71
Terminal junctions make their debut .Staff Report 4-47
Wiring . . . some like it flat .....Smedley B. Ruth 2-75
